

Choose an **Integrated** **HSA** Solution

Integrated Health Savings Account Billing and Enrollment

Integrated Enrollment and Billing Arrangement

If you've already decided that a health savings account (HSA) is the right consumer-directed product for your organization...that's just the beginning! There are all kinds of arrangements to make now. Wouldn't it be great if someone took care of all that for you?

Good news—we have! We partnered with HSA Bank to offer you an integrated enrollment and billing arrangement. It features:

- **Streamlined enrollment.** We will facilitate both the health insurance enrollment and the banking setup in a single step.
- **One-stop convenience.** You only need to have one point of contact—PacificSource—for both pieces of your benefit solution.
- **Automatic electronic payment.** There are no checks to write since we'll automatically debit your account each month for both the insurance premium and the HSA contributions.

All you have to do is provide us with the information and permissions we need to establish ongoing, scheduled EFT transactions from your designated bank account. And, when there are enrollment or contribution changes, just notify us. We'll take care of the rest.

Why HSA Bank?

HSA Bank is a recognized expert in the field. Their streamlined enrollment process and low account fees set them apart from a growing crowd of HSA trustees.

Would you like to know more about HSA Bank? Visit their Web site, HSABank.com, to find out more about the company and what they can offer you and your employees.

Get Integrated Today!

Our Web site, PacificSource.com, has everything you need to get started. Simply visit the For Administrators area and download the HSA member enrollment packet.
