

Find **Quality** **Transplant** Services

LifeTrac® Transplant Network

A Nationwide PPO Network for Our Customers

Organ and tissue transplants are among the most complex medical procedures people can experience. That's why PacificSource has partnered with LifeTrac® Transplant Network to assist our members with finding quality transplant services.

Why partner with LifeTrac?

- **Experience.** LifeTrac provides network access to more than 30 million individuals and is the first and only transplant network accredited by JCAHO. Working together with physicians, LifeTrac can offer the latest information in transplant care and programs.
- **Access.** The LifeTrac Transplant Network is a national network comprised of over 455 credentialed programs within 60 of the world's leading transplant facilities. LifeTrac's Transplant Network ensures that members have the broadest access to transplant facilities, so it will be easier for them to find the best possible care.
- **Convenience.** Our group contract includes a limited travel benefit for transplants. This benefit helps offset the cost of travel if members decide that the best venue for transplant is out of state.

How does the travel and lodging benefit work?

PacificSource provides eligible individuals with travel and lodging reimbursement in conjunction with participating transplant facilities. To be eligible for travel and lodging assistance, a member must:

- Be a transplant candidate;
- Live more than 100 miles from the designated transplant facility; and
- PacificSource must be the member's primary insurer.
