**PRENATAL VITAMIN PROGRAM**  
**Questions and Answers**

**What is the program?**

As part of your PacificSource pharmacy benefit, if you are pregnant, you can receive up to six months of physician-prescribed prenatal vitamin supplements at no cost (all copays and deductibles are waived). We offer this benefit to pregnant members to promote healthy fetal development and optimize healthy baby outcomes.

**What vitamin supplements are covered?**

There are two prescription prenatal vitamins offered under this program:

- Prenatabs Rx 29 – 1 mg. (29 mg. iron and 1 mg. folic acid)
- Prenatal Plus 27 – 1 mg. (27 mg. iron and 1 mg. folic acid)

**Are there any limitations?**

- You must be pregnant and have a pharmacy benefit to be eligible.
- Coverage is only allowed for the vitamin supplements indicated on the request form. Over-the-counter vitamins are not covered.
- Prenatal vitamin supplements are only available through Wellpartner mail order pharmacy. Specific order instructions are found on the request form.

**How do I request and obtain my prenatal supplements?**

- Take a copy of this form with you to your next doctor's appointment or mail or fax a copy to your doctor.
- Your provider will need to fax a copy of this form to Wellpartner pharmacy, which will mail your order to you. Your address on the completed form is where your prescription will be sent.
