Accident Benefit

The first \$1,000 of covered expenses within 90 days of an accident is covered up to the maximum benefit available and is not subject to the deductible. The date of injury must occur after the member is enrolled in this plan. If date of injury occurred prior to being enrolled on this plan, this benefit will not apply. The balance is covered as shown below.

The member is responsible for the above deductible and the following amounts:

Additional Information

What is the annual deductible?

Your plan's deductible is the amount of money that you pay first, before your plan starts to pay. You'll see that many services, especially preventive care, are covered by the plan without you needing to meet the deductible. The individual deductible applies if you enroll without dependents. If you and one or more dependents enroll, the individual deductible applies for each member only until the family deductible has been met. Deductible expense is applied to the out-of-pocket limit.

Participating provider expense and non-participating provider expense apply together toward your deductibles.

What is the out-of-pocket limit?

The out-of-pocket limit is the most you'll pay for covered medical expenses during the plan year. Once the out-of-pocket limit has been met, the plan will pay 100 percent of covered charges for the rest of that year. The individual out-of-pocket limit applies only if you enroll without dependents. If you and one or more dependents enroll, the individual out-of-pocket limit applies for each member only until the family out-of-pocket limit has been met. Be sure to check your Member Handbook, as there are some charges, such as non-essential health benefits, penalties and balance billed amounts that do not count toward the out-of-pocket limit.

Note that there is a separate category for participating and non-participating providers when it comes to meeting your out-of-pocket limit. Only participating provider expense applies to the participating provider out-of-pocket limit. Only non-participating provider expense applies to the non-participating provider out-of-pocket limit.

Payments to providers

Payment to providers is based on the prevailing or contracted PacificSource fee allowance for covered services. Participating providers accept the fee allowance as payment in full. Non-participating providers are allowed to balance bill any remaining balance that your plan did not cover. Services of non-participating providers could result in out-of-pocket expense in addition to the percentage indicated.

Preauthorization

Coverage of certain medical services and surgical procedures requires a benefit determination by PacificSource before the services are performed. This process is called 'preauthorization'. Preauthorization is necessary to determine if certain services and supplies are covered under this plan, and if you meet the plan's eligibility requirements. You'll find the most current preauthorization list on our website, [PacificSource.com/member/preauthorization.aspx](https://www.pacificsource.com/member/preauthorization.aspx).

Bend Chamber of Commerce

This PacificSource health plan includes coverage for prescription drugs and certain other pharmaceuticals, subject to the information below. This benefit includes some drugs required by federal health care reform.

The amount you pay for covered prescriptions at participating and non-participating pharmacies applies towards your plan’s participating medical out-of-pocket limit, which is shown on the Medical Benefit Summary. The co-payment and/or co-insurance for prescription drugs obtained from a participating or non-participating pharmacy are waived during the remainder of a calendar year in which you have satisfied the medical out-of-pocket limit.

PACIFICSOURCE PREVENTIVE RX

Your prescription benefit includes certain outpatient drugs as a preventive benefit at no charge*. This includes specific drugs that are taken regularly to prevent a disease or to keep a specific disease or condition from progressing. Preventive drugs are taken to help avoid many illnesses and conditions. You can get a list of covered preventive drugs by contacting our Customer Service team or visit PacificSource.com/drug-list/.

** Compounded medications are subject to a preauthorization process. Compounds are generally covered only when all commercially available formulary products have been exhausted and all the ingredients in the compounded medication are on the applicable formulary.

MAC B - Unless the prescribing provider requires the use of a brand name drug, the prescription will automatically be filled with a generic drug when available and permissible by state law. If you receive a brand name drug when a generic is available, you will be responsible for the brand name

drug's co-payment and/or co-insurance plus the difference in cost between the brand name drug and its generic equivalent after the deductible is met. If your prescribing provider requires the use of a brand name drug, the prescription will be filled with the brand name drug and you will be responsible for the brand name drug's co-payment and/or co-insurance after the deductible is met. The cost difference between the brand name and generic drug does not apply toward the medical plan's deductible or out-of-pocket limit.

If your physician prescribes a non-formulary contraceptive due to medical necessity it may be subject to preauthorization for coverage at no charge.

See your member handbook for important information about your prescription drug benefit, including which drugs are covered, limitations, and more.
