Decide on dental

Good dental health can lead to better overall health. You can group our dental plans with your health plans, or select dental-only.

Dental options to fit your company's needs

Dental Choice plans give your employees the option to see any dentist they want.

Dental Advantage plans give your employees access to a robust network of more than 1,800 dental providers in Idaho, Oregon, and Washington.

Dental Advantage Essentials plans cost less because employees and their primary care dentist work together for better outcomes.

Find in-network dentists at our website.

With our Voluntary Dental option, your employees pay the full premium as if they were buying their own dental plan, but they get plan benefits that typically come with a dental plan that you might offer as an employer.

There are additional guidelines and requirements for voluntary dental plans.

Group size requirements

The listed group size requirement applies when the dental plan is purchased as a stand-alone plan. When grouped with a medical plan, all dental plans are available.

Helping you choose a health plan

Health plans can be complicated. We can help simplify your choice.

All of our health plans are designed to help your employees feel well and stay healthy, including coverage for preventive care, \$0 annual physicals, and most vaccinations.

Choose one plan, or more.

Our Right Fit options let your employees decide the premium and coverage that best suits their needs.

Right Fit

They can choose from two to four different plans. There is no minimum enrollment number, but the number of plans offered may not exceed the total number of enrolling employees.

The plans offered can use different provider networks, and employees may change their plan choice during your annual open enrollment period.

The minimum employer contribution requirement is 50% employee / 0% dependents of the lowest cost plan.

Underwriting guidelines may apply.

Health Savings Accounts (HSAs) are a win-win

HSA

HSA-qualified plans help employees save money for healthcare expenses, such as deductibles and co-insurance. They also help YOU save premium dollars, AND your contributions to HSA accounts are exempt from payroll taxes. All of our HSA plans feature embedded deductibles and out-of-pocket limits.

Pro Tip: Look for plan names with "HSA" in them.

Health Reimbursement Arrangements (HRAs) to combat costs

HRA

With an HRA, you reimburse some of your employees' medical expenses. You control how much to contribute and which types of expenses are eligible. And if they don't need it, you don't spend it.

Great stuff you and your employees get with our plans.
