

About Your Dental Advantage Essentials Plan

How Your Dental Advantage Essentials Coverage Works

Partner with a Primary Care Dentist (PCD)

With a Dental Advantage Essentials plan, you'll partner with a primary care dentist in the Dental Advantage Essentials Network. Unlike dentists on other traditional dental plans who have restraints regarding treatment frequencies, your PCD has more freedom to provide treatments tailored to your specific needs. If specialist care is needed, your PCD will provide referrals and coordinate your care to ensure you receive quality service and effective treatment. Only services provided by in-network dentists are covered.

What's different about the dentists in this network?

The Dental Advantage Essentials Network is made up of select providers who will work with you and take a holistic approach to your dental health. These experienced primary care dentists take a broad role in your dental care and focus on your long-term oral health goals.

Straightforward Coverage, More Value

Your affordable Dental Advantage Essentials plan simplifies your out-of-pocket costs and coverage. Instead of coinsurance, you are only charged a copay. There are no deductibles, annual maximums, or cost sharing to worry about. Enjoy the simplicity of knowing exactly what you will pay for your dental needs. Please see your Dental Benefit Summary for covered services and copay amounts.

Selecting a Dentist

Finding a primary care dentist is as simple as 1-2-3 using our online provider directory:

1. Visit PacificSource.com/find-a-provider.
2. Click the "Find a doctor" button.
3. Enter the area where you would like to search. Under the heading "Next, narrow your search," in the "Specialty Category" field be sure to select "Dental Providers," and in the "Plan or Network" field be sure to select "Dental Advantage Essentials."

Questions?

You're always welcome to contact us. We'll be happy to help.

Dental Advantage Essentials plans are a different kind of dental coverage that's tailored to your needs.
